

I Believe God

Verse 1

Paul and Luke were taking a trip
When the south wind blew softly they boarded the ship
Destination already planned
They were guided by God's mighty hand
But soon after the ship set sail
They encountered a stormy gale
When the sun did not shine
Ole Paul did not mind
He said I believe God

Chorus

And I believe God though the lightning is flashing
I believe God though the thunder is crashing
I believe God when the storm is all past
We'll reach the other side safe at last
Oh the Lord stood by me in the darkest night
Said sweet child of mine, everything is alright
We're never alone
We'll make it on home for I believe God

Verse 2

Along life's path there'll be storms to face
But we're gonna make it by amazing grace
It's been good for each mile, good for every trial that I've gone through
So I'll keep holding to God's mighty hand
And I know one day I'll reach heaven's strand
When I reach that shore
Gonna shout it once more for I believe God

Chorus x2
