

# Through All He Left Behind

## Verse 1

Far away beneath the western sky where the sun turns to rose  
Lies my Grandpa in a hillside grave  
He died some fifty years ago  
They say he stood a mountain high and had an honest style  
And Though I never knew Him then  
I know Him through all He's left behind

## Chorus 1

For I have seen Him in the eyes of those who loved Him  
I felt him in the arms of those He loved  
I've met Him in the stories I've heard a thousand times  
I know Him through all He's left behind

## Verse 2

Within the light of the rising sun n a torn and distant land  
Lies the awe of an empty grave and the wonder of a living man  
To think a simple Carpenter would make the way for all mankind  
And though I never walked with Him  
I know Him through all He's left behind

## Chorus 2

For I can see Him in the eyes of those who love Him  
I can feel Him in the arms of those He loves  
I can meet Him in the stories I've heard a thousand times  
I can know Him through all He's left behind

## Bridge

For Jesus reached beyond the years with life that knows no time  
By His spirit and His word  
You can know him through all He's left behind

## Chorus 3

For you can see Him in the eyes of those who love Him  
You can feel Him in the arms of those He loves  
You can meet Him in the stories you've heard a thousand times  
You can know Him through all He's left behind  
You can know Him through all He's left behind
