

What I Can't Forget

Verse 1

At a Sunday evening service the preacher asked for us to share
Our memories of the day when we were saved
But me, I sat in silence for some things I can't recall
But I remember one thing that matters most of all

Chorus

When Jesus came into my soul
He washed it white as snow
When healing grace consumed my life
With love I'd never known
I don't remember all the details
I don't remember what was said
But it's not what I remember
It's what I can't forget

Verse 2

Some recall the place and time, the preacher and the pew
But I recall a little girl who gave her heart to You
Some may even question the condition of my soul
But I still feel the power of an empty heart made whole

Chorus
